

Classroom Assessment Webinars

The ministry is hosting an interactive webinar series with presenter Tom Schimmer on aligning classroom assessment practices in the graduation years with the Grades 10-12 redesigned curriculum. Discussions will focus on learning standards, including curricular competencies and content.

The first session was held on January 17th. Remaining webinars on:

- 4:00-5:30 – Wednesday, February 13
- 4:00-5:30 – Thursday, April 11

Please email heather.brown@gov.bc.ca by February 11 for webinar access details. [Note: if you registered for the January 17th session, you do not need to re-register.]

Districts and schools are encouraged to organize educators to attend the live-stream together in local groups. The intent of these webinars is to facilitate meaningful and practical conversations at the local level, while providing the opportunity for simultaneous engagement with others throughout the province. Group discussions will be prompted throughout.

About the host: Tom Schimmer is a BC-based assessment author and former BC teacher and administrator. He currently consults with Solution Tree and was recently featured in the first Ministry of Education-produced [video on assessment literacy](#).
